NIKHIL SHARMA

FULL-STACK DEVELOPER

Panchkula, Haryana, India | +91 7807637890 | nikhilsharma2203@gmail.com
GitHub: github.com/nikhilsharma7777 | Portfolio: nikhil07.vercel.app

PROFESSIONAL SUMMARY

Aspiring Full-Stack Developer with hands-on project experience building and deploying web applications using React and modern JavaScript. Brings professional experience in Linux system administration, production troubleshooting, Bash automation, and MySQL in telecom environments. Interested in building responsive, reliable web applications and continuing to develop backend and database skills.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap 5, jQuery
Backend & Database: Node.js, Express.js, MongoDB, MySQL
Tools & Platforms: Git, GitHub, Vercel, Linux / RHEL, Bash Scripting, Grafana
Other: REST API concepts, Responsive Web Design, Troubleshooting

PROJECTS

SoleHub — E-Commerce Web Application

Live Demo: solehub-phi.vercel.app

• Completed and deployed an e-commerce web project with a focus on a modern storefront and responsive user experience.
• Built as a portfolio project to demonstrate practical web development skills.
• Technologies: list the technologies actually used in this project.

Personal Portfolio Website

Live Demo: nikhil07.vercel.app

• Developed a mobile-first portfolio website to showcase projects, skills, and professional experience.
• Focused on clean presentation and responsive layouts for desktop and mobile screens.

Telecom Server Monitoring & Automation

• Created Bash automation and monitoring workflows for log analysis, system performance checks, and scheduled operational tasks.
• Supported the availability and operation of 40+ RHEL production servers.

PROFESSIONAL EXPERIENCE

Linux System Engineer | Mannash Solutions Pvt. Ltd. — Feb 2025–Present

• Maintain and support 40+ RHEL production servers for mission-critical telecom applications.
• Monitor system health, CPS metrics, production alerts, and application performance.
• Use Bash scripts to streamline operational reporting; analyze logs and troubleshoot incidents to reduce service disruption.

GIS Technician | UDC India Technologies Pvt. Ltd. — Jul 2024–Jan 2025

• Performed quality checks on geospatial datasets for accuracy and completeness.
• Used ArcGIS Pro to process and validate spatial data for infrastructure mapping projects.

EDUCATION & CERTIFICATIONS

Bachelor of Computer Applications (BCA) — Shoolini University, Solan (Aug 2024–Present)
Diploma, Computer Science Engineering — ABVGIET Pragati Nagar, Shimla (Jul 2022–Jul 2024)
Full-Stack Web Development — Udemy, 6-month course
Web Development — Excellence Technology, Mohali, 2-month course
